Corporate Overview

DSHitech is a leading provider of optical fingerprint recognition products, tools, platforms and applications for physical and information security. DSHitech's provides OEM components for stand-alone type fingerprint biometric modules, strong authentication time and attendance systems, biometric door locks, access control systems and PC peripherals.

DSHitech strives to provide its customers and partners with the highest quality products and service through continuous research and development and comprehensive technical support.

DSHitech Technology Products and Solutions

- **TimeStation – Fingerprint Time & Attendance System**
Advanced recording system for time and attendance. TimeStation eliminates the need for punch cards and user ID cards. Helps combat fraud and provides simplified, more accurate record keeping.
- **BioCav – Fingerprint Door Lock**
Fingerprint identification door lock for high level security and convenience. Door is unlocked by registered fingerprint only and with only one touch. CE, FCC, and ISO certified.

- **TouchBy1000 - Access Control System**
Integrated access control system, time and attendance unit, HID card reader, using fingerprint recognition. Supports RS232, RS485 and TCP/IP
- **Fingerprint Recognition Module – Stand-alone Unit**
This product is commonly integrated into devices that do not require computer connections; such as door locks and physical access points.
- **Fingerprint PC Peripherals –**
Biometric authentication for keyboards, terminals, computer mice to provide better security and more convenience.
- **Software Development Kit (SDK)**
The SDK allows programmers to quickly and easily add fingerprint recognition technology into their own software applications.
