Corporate Overview

Endam Co., Ltd is a Korean-based manufacturing firm founded in 2003 that develops and markets their own digital door lock systems. Born out of long research efforts and thorough testing, their door lock systems will make any office or residential space more secure, safer and comfortable.

Built with diverse biometric recognition functions, Endam Co. created the Bitzzang line of state-of-the art high-tech door system designed for easier more convenient use. This door system incorporates Endam's own fingerprint recognition technology as well as numerous integrated features to provide elegant and secure solutions for all your physical access requirements. Bitzzang locks can include: automatic power on at a single touch; user screens; RF Key Card interfaces; password protection; intrusion detection; automatic locking and releasing; emergency batteries and alarms; mechanical mortise; user registration; movement restriction features.

Endam's Bitzzang Door Lock Systems come in a wide variety of materials, colors and designs to suite your particular situation.
