## **Corporate Overview**

Mobile Compia Co., Ltd. is a Korea-based company that is a global leader in enterprise mobility solutions. Its newest industrial strength PDA, M3 series, is recognized throughout the world as a high quality, reliable, artfully-designed PDA. The M3 Series has been introduced to over 45 countries where major multinationals trust their logistics requirements to the innovative M3 handheld PDA.

The rugged PDA is used daily in the field for logistics, warehousing, retail applications where mobility, intelligence and durability are combined to provide superior solutions. The M3 is a hand held computer that features advanced applications including: barcode scanner; Bluetooth interface; and a digital camera. The advanced design and materials of the M3 offer protection against dust, moisture, extreme temperatures, freezing to -20C, and up to 50C. The M3 can be dropped from a height of 1.5 meters onto concrete and maintain its still function.

The M3 comes in two separate models (M3 Green and M3 Sky) that run different operating systems – Win CE 5.0 and Windows Mobile 5.0 respectively. Both versions have options including: GSM/GPRS/EDGE; WLAN; barcode; scanner; camera; and Bluetooth. These features and options combined with its sophisticated technology makes the M3 one of the most versatile hand held computer systems ever developed.
