### **Introduction**

Intsys Co. Ltd is a Korean high-tech company that offers RFID, mobile, PDA, VPN and wired/wireless LAN solutions. As a full-fledged systems integrator, the company has been involved in a number of pioneering initiatives in these diverse areas and has significant expertise in delivering cutting-edge solutions to a premium customer base. Over the years, Intsys has built strong relationships with business leaders like INTERMEC, LGCNS, AWID, LG Electronics, Samsung SDS, Samsung S1, LG Telecom, Sunstar and SK Telecom.

### **Corporate Profile**

Intsys was established in May 1999 and has an envious track record since then. During the same year, the company tasted instant success by implementing networks for LGE Domestic Sales Division and a nation-wide Point-of-Sale (POS) System for HiPlaza. In 2000, Intsys which was rechristened INT Information System Co. Ltd, made its first foray in the mobile area by developing the first integrated PDA device in South Korea. The company also developed a MSR integrated mini thermal printer during the same year. In 2001, Intsys consolidated its presence in the mobile/wireless area by

- Inking memorandum of understanding (MOU) with LGCNS in the mobile business area
- Developing MSR printer interface software for PDA
- Delivering mobile card printer to LGE A/S division
- Designing and implementing wireless LAN for LGE

In 2002, the company's credibility in the mobile application market was further enhanced by implementing

- Call center and A/S mobile system for Daewoo Electronics
- Mobile support system for home delivery at LGE
- Mobile system to connect HiPlaza to its distribution partners
- Overseas management system (GCSC) for LGE

2003 was another noteworthy year when Intsys opened its R&D division and gained further recognition by

- Implementing a Call Center for Chungho Comnet
- Signing a partnership agreement in mobile business with LG CNS
- Becoming preferred business partner for LG IBM and SK Telecom
- Certifying a National New Technology Venture

In 2004 Intsys acquired the ISO9001 certification and continued to deliver immense business value for LGE and its domestic sales division through

- Mobile Office System Implementation

- Financial Management RFID System Implementation
- VPN System Implementation

In recent times, the company has kept its innovation engine going by churning out new products like the Sunstar Network Solution and two Handheld 900 MHz RFID Readers (models are IRR-1727 and IRR-2010). Intsys has an enviable track record of delivering RFID solutions to industry leaders:

- Factory Automation – Samsung Electronics Factory in Kwangju and LG Electronics Factory in Pyungtak
- Inventory Management System – Korea IBM, Yonsei Hospital, Korea Exchange Bank, Samsung SDS, POSCO and LG Electronics Customer Services
- Security and Access Control System – CAPS, S1 and ETRI

In an effort to promote its latest products, Intsys is enthusiastically looking to cement relationships and share its success with companies such as INTERMEC, AWID, Samsys, Alien and Symbol.
