Introduction

RF-Link is a pioneer in the Radio Frequency Identification (RFID) technology area in the Republic of Korea (ROK). The company is an established leader in the development of RFID tags of various frequencies (125 KHz, 134.2 KHz, 13.56 MHz and 900 MHz) for various industries. RF-Link strives to produce high quality products at competitive prices for its valuable customer base. The company has made significant investments in its in-house R&D and manufacturing processes to respond quickly to customer needs. RF-Link's primary goal is to be one of the leading RFID tag manufacturers in the world.

Corporate Profile

RF-Link in its previous avatar as KNIT, was founded in the year 2000 through the acquisition of Leema Pharmed Company. Since then, the company have been developing and supplying RFID Tags of low, high and ultra-high frequencies. In 2002, KNIT was rechristened RF-Link Co. Ltd. Within a year, RF-Link got venture backing from the SMBA. RF-Link made rapid strides in 2004 by

- Manufacturing RFID Traffic Cards for Mybi Co. Ltd
- Supplying Production Management purposed RFID Tag to LG Industrial Systems
- Signing a contract with LG CNS for Public Procurement Service Project
- Developing Livestock RFID Tag for Pukyung Pig Farmers Agricultural Cooperative & EZ Farm
- Supplying RFID Traffic Card to Korea Smart Card Co. Ltd (Seoul City Traffic System)

RF-Link continued to make waves in 2005 by

- Supplying RFID 900 MHz Tag to Public Procurement Service (Korea Central Government)
- Supplying RFID Traffic Card to Visa/Cash for DaeJeon City
- Starting RFID Tag development for Ammunition Depot Management Project with Ministry of National Defence
- Winning contract for manufacturing 900 MHz RFID Tag for Korean Air Force F-15 Project
- Signing RFID Tag Supply Contract with POSCO

RF-Link created a splash recently by participating in the "RFID Journal Live Show" and the "2005 Seoul Venture Tour". The company has cultivated fruitful partnerships with LG CNS, LG, Hitachi, Philips, Microchip, Samsung corp. and Mybi. RF-Link counts POSCO, Korea Government, Korea Military and LS industrial systems among its esteemed customers. The company with a production capacity of 70 million tags per year

is looking for customers who need large supplies of RFID tags from March 2006. In addition, RF-Link is keen to meet developers of new RFID tags for special environments. The main products in RF-Link's portfolio are as follows:

1) LF Tag - Cow Tag/Gate Control Card

2) HF Tag - Pig Tag/Label Tag/Gate Control Card/Traffic Card/Production Control Tag/Heat & Acid Resistance Tag/Customized HF Tag/Metal on Tag

3) UHF Tag - Label Tag/Gate Control Card/Production Control Tag/Heat & Acid Resistance Tag/Customized UHF Tag/Metal on Tag/Dual Frequencies Card (13.56 MHz/900 MHz)
