## **Corporate Overview**

Chance-I Co., Ltd. is a Korean-based high tech manufacturing company that has a heritage of innovation and excellence dating back to 1990 when it was started as a leading VGA graphics manufacturer named Tae-Geun Industries. Its first product was called *Chance*. Since then, many graphics, multimedia, digital image and compression boards for PCs have been developed and marketed by Chance-I in Korea and throughout the world. Today Chance-I offers complete DVR systems, DVR surveillance systems, access control systems, POS DVRs as well as a fully integrated Access Control DVR systems marketed under the brand name XAD.

Building on this success, today Chance-I focuses its efforts on computer imaging applications and has developed DVR systems capable of displaying and recording at 480 frames per second. Chance-I has all of the elements under one roof to produce truly world-class DVR products including the expertise and knowledge related to crucial image compression algorithms and image watermark technologies.

The Chance-I product is a PC-based DVR that processes images with an MPEG 4 CODEC while synchronizing text data from a database and images. It allows users to playback and view any images and related text data in their surveillance system quickly and easily. Images are encoded to hardware within a capture board unlike other products in the market and because the technology is PC-based it ensures higher reliability.

## **Chance-I's XAD Access Control DVR**

A single operation platform for access control and video surveillance management. The XAD system is an embedded access control and video surveillance OS, that can maximize IT and infrastructure investments, by not using any middleware servers or video bridging software.

**The XAD Access Control Video Surveillance Management System** contains complete access control and application features, as well as Point-of-Sale and ATM interfaces for the DVR. The XAD System offers all modulated optional Time & Attendance, Visitor Management, Elevator Control, and ID Badge Printing systems' software. XAD also includes the ability to monitor 1000 remote locations through its Central Monitoring Software.

### **XAD Features:**

- 16/32 channel Camera/Sensor/Audio
- Real Time Display and recording at CIF/Half D1 / D1 Resolution 480 FPS @ Full D1, MPEG-4, Pan/Tilt/zoom/focus control support
- 100% touch operated point-of-sale
- Supports CRM loyalty programs such as gift cards, awards points, sales tracking
- Inventory analysis
- Special features such as custom labeling and add-ons.
