Corporate Overview

E-RONIX Inc. established in 2005, is a dynamically growing CCTV camera company in Korea which has quickly become a leader in developing and manufacturing speed dome camera for customers throughout the world. All research and development, testing, and manufacturing are done in house. E-ronix also is developing new camera technologies enhanced by wireless artificial intelligence to enable the next generation of security solutions. E-ronix holds several patents including two that prevent condensation and vibration of the cameras.

Since its inception E-RONIX has been a rapid innovator of new camera technologies that are being used in major markets. Advancements have included new mini dome camera mechanics, the world's smallest indoor and outdoor mini dome cameras, a new system controller for the 3-AXIS joystick, and their recently launched 36 x, 26 x, 18 x High Speed Dome Cameras, as well as a night vision camera with 10 X zoom lens.

E-RONIX continues to show industry leadership especially in the area of ultra-minute mechanics and in image processing. New wireless security imaging systems combined with state-of-the-art artificial intelligence applications will allow E-RONIX customers to enjoy an added level of security until recently available. E-RONIX products have a reputation of being extremely reliable, durable, and easy to install.

E-RONIX Product and Solution Highlight

E-RONIX – World’s Smallest PTZ (10X) Camera

The E-RONIX speed dome Camera is the smallest PTZ camera in the world. It has a built-in motor so it can revolve 360 degrees in any direction – up and down and side to side. It uses a built-in 10x auto focus optical zoom and 10x digital zoom. It can be zoomed up to 36x in optical and up to 432x in digital (EPP-360 MODEL). This camera can be used in most industries including: financial; retail; highways and roads; construction; malls etc. It is especially effective for monitoring at a long range due to its digital zoom which magnifies the viewing field up to 432x (EPP-360 MODEL). The camera can also be delivered as a waterproof product and it is certified IP67 (OUTDOOR).

FEATURES

- 3.5 inch speed bubble dome, PTZ (10x)
- Weight: 620g
- Fastest Speed – 400 degrees per second
- Compact and unique design
- High Video Quality
- Help Function
- Pre-set individual dwell time settings

E-RONIX Representative Clients

- March Networks -- Canada
- COHU Electronics – USA
- Jini – Japan
- Genie – UK
- HR CCTV, Cieffe – Italy
- Also distributes in South America, North America, and Asia
