Corporate Overview

E-TECH CO., LTD. is dedicated to providing on-site communication and fleet management solutions to its worldwide customers.

E-TECH's main product series meet demanding standards such as IP55, and MILSTD 810F, the US military standard for portable radios. E-TECH's IP and IM series are CE and FCC certified.

E-TECH's Products

E-TECH's products feature **ease of use** and **reliability**. The main products include the IP series of portable radios and IM series of mobile radios.

IP Series Radios

Description: E-TECH's IP series radios cover several frequencies such as Mid-band (66-88MHz), VHF (136-174MHz) and UHF(405-470MHz) and are light in weight but tough in features.

Main features:

- Light weight: 10oz including battery
- Clear voices: Speaker size: 45pi
- Broad channel selection: 255 channels
- Durable battery: 1800mAh Li-Ion, 13 hours
- Auto VOX
- 2 tone/5 tone
- Emergency button
- Priority Scan
- Auto Squelch
- Built-in Scrambler
- DTMF Encoder
- Lone Worker
- 6 Programmable buttons
- LCD Display
- Stun/Unstun
- Status call

IP Series Applications E-TECH's IP series two-way radios provide a cost efficient solution to enhance the communication in business sectors such as construction, manufacturing, building management, public safety, fire, emergency response and security.

The IP series 6 programmable buttons allow **customization** of more than 20 powerful functions to meet special needs both in day-to-day and emergency situations.

The compact design, the durability of the battery and the power save function give the user **ease of daily use** and **more talking hours**.

Meeting the military standards such as MILSTD 810F and IP55, the IP series demonstrates its **toughness** in working in harsh and demanding environments. The large speaker size delivers clear audio even under the noisiest conditions.

IM Series Radios

The E-TECH IM60/100/400 Series Radios cover Mid-band (66-88MHz), VHF (136-174MHz) and UHF (405-470MHz) and are highly functional choices of your fleet management.

Main features:

- | | |
|------------------------------|------------------|
| - Tough, rugged construction | - Talk Around |
| - Large, easy to read LCD | - Channel Naming |
| - Adjustable LCD brightness | - Lone Worker |
| - 255 channels | - CTCSS, DCS |
| - 2 tone, 5 tone | - Missed Call |
| - DTMF encoder | - Status Call |

Applications

Due to the mobile nature of their operations, transportation businesses sometimes face uncertainty related to time and schedule, traffic and the emergency needs of drivers. IM series provide a cost effective solution for transporters such as courier service, construction, taxi and trucking companies to address the issue of uncertainty by increasing the **productivity** and the **ability of emergency response** and at the same times, ensuring the **safety and security** of its drivers and vehicles.

E-TECH's IP Series, IM Series' programmable buttons allow you to customize features to meet your special needs. It includes large capacity (255 channels) and popular built-in tone signaling such as CTCSS, DCS, 2 tone / 5 tone and DTMF encoder.
