Corporate Overview

SONTEC is a Korea-Based company that specializes in the development and manufacturing of RFID metal tags, antennas and middleware including Hand-Held Readers. SONTEC has successfully brought to market an extensive line of RFID metal tags that support the deployment of RFID-based solutions in industrial and logistic environments. These products include metal tags, antennas, car-sticker tags, access control and ID Cards.

SONTEC RFID Specialty Tag Overview

SONTEC offers 10 different types of tags – each one designed to meet a specific purpose. Review the product chart below to find which tag is right for your application.

Join POSCO, Samsung, LG, Korea Data, and US government contractors; choose our RFID tag for your tagging needs. Join our clients who are already using our RFID tags to improve inventory management and supply chain management systems. Our RFID tags are temperature RFID tags that can withstand extreme temperature conditions. Also, the tags are water resistant and chemical resistant.

SONTEC RFID Tag Features:

- Able to read UHF tags even on metallic or liquid objects
- Strong signal capacitance even when surrounded by metal objects and structures
- Underground RFID tag has read range of 50cm

- Other tags have read range of 3-7m, depending on model
- RFID Tags work in 900MHz
- Multiprotocols (EPC Class 0/0+, EPC Class 1, ISO18000-6b/Ucode 1.19, Gen 2)
- Can be deployed in RFID networks of varying frequencies
- Made of ABS plastic, Teflon or compound depending on model

SONTEC RFID Tag Applications

- Use for sheet metal, iron and steel supply management
- Inventory Management for Metal, Liquids, and high-value items
- Air Cargo ULD tracking
- Garment Tagging for retail stores
- Correctional institutions for tagging inmate belongs, supplies
- Weaponry tracking
- Toxic waste tracking
- Vehicle Tagging for real-time information
- Casino Chip Tags

SONTEC Representative Global Client List
